ABOUT ALEXANDRA FARMS

Alexandra Farms is a family-owned boutique grower of romantic, nostalgic garden roses nestled high in the Andes mountains of Colombia. Since 2005, we've been dedicated to cultivating flowers with exceptional beauty, fragrance and performance. Our employees care for more than 70 garden rose varieties by hand on 50 acres of fertile land, producing more than 42,000 stems each day. Certified by Florverde Sustainable Flowers, One Carbon World, and BASC, we proudly grow our award-winning blooms with a commitment to social and environmental responsibility. Available year-round through floral wholesalers worldwide, our garden roses bring romance and artistry to floral designs.
